

Friends and Colleagues,

I hope the New Year is off to a great start for you and your families. In 2017, I hope you come to challenge yourself personally and professionally, commit to trying something new, learn and push yourself!

Over the past 18 years you have allowed us to care for your patients and work together with you and your team, and for that my staff and I are grateful!

The various events and courses we host are our way of showing our gratitude and appreciation to the dental community. We have new topics, speakers and events planned for 2017. I hope you and your staff will take advantage of these opportunities to learn and socialize, it's always great to see old friends and make new ones.

In 2017 we will focus on the latest dental implant technologies and advances. Advances in dental implants have made dental implants the first choice for tooth replacement for many of our patients. These new advances and technologies will continue to make implants predictable, esthetic and more efficient.

We continue to realize excellent results treating periodontal disease with the LANAP laser protocol. With numerous patients returning for periodontal recall that are 6+ years post-treatment, the long-term results are truly impressive. Our patients appreciate a predictable and comfortable treatment option. I hope you are impressed with treatment outcomes.

In order to accommodate your emergencies in a timely manner, we will continue to allow time on our schedule every day to better serve your patients with urgent concerns.

The *Southern Wake Dental Institute*, our local Seattle Study Club, was founded in 2010, please consider joining. We have a fantastic group of general dentists and specialists. We have had many nationally known speakers in addition to treatment planning sessions and problem solving workshops. If you'd like more information let Sarah, our study club coordinator know.

I look forward to seeing you and your staff at upcoming courses and events. This schedule of events, along with our Seattle Study Club schedule will be posted on our website (kazmerperio.com) for your convenience as well. Lastly, I want to express my gratitude to the dental community for your trust and loyalty over the years.

Make it a great year!

A handwritten signature in black ink that reads "Paul".
